# MILLIONS REALIZED FROM SALE OF ENEMY SHIPS BY BRITAIN

LONDON, May 20 .- A net gain of \$24,250,000 has been realized by Great Britain from the seizure of enemy ships and their cargoes in the last twenty months of the war, according \$26,540; total proceeds of sale of to the record of the prize court. The ships and cargoes, \$34,250,000. government has captured 157 ships cision by the prize court as follows:

The results of the sales have been

approximately: proceeds condemned vessels, \$1,674,025; expenses of sale, The goods which have been seized

which have been disposed of after de and condemned as contraband represent every possible variety, ranging No Tonnage from windmills tombstones and hu-54,772 man hair to wild animals which were 56.162 intended for the Berlin Zoo.

### TUNGSTEN DECLINE DUE TO SHIPMENT

UNEXPECTED ARRIVAL OF SHIP. LOAD FROM SOUTH AMERICA FOR GERMANY

DENVER, Colo., May 20.-Tungsten will rise again. This is the statement of W. W. Degge, who is associated with Jack Clark in the buying of ores and who has been studying the game closely since his entrance into it several months ago.

Reasons for his belief, he says, ar first, that the eastern market has been depressed by the arrival of a shipload of tungsten in New York. This cargo which was consigned from South America to Germany, had to give up the trip across the water because of fear of being captured by the British and it put into port in New York as a last resort.

# INCREASE IN GOLD

PRODUCTION OF TWO METALS BY EIGHT IMPORTANT

ted States produced in the year ended operated in charge of Engineer Leon December 31, 1915, \$98,891,100 of gold M. Hall, and work will be started at against \$94,531,800 in the previous once, opening the ledge on the 200year. Silver production fell from 72, foot level. This mine has produced 455,100 ounces in 1914 to 67,485,600 in over a million dollars and there is a 1915. The production of the eight good hoist and other surface equip

HOW MAIL ORDER FIRMS GET TRADE

Joseph E. Malcotm, advertising manager of one of the biggest mail order houses on the Pacific coast and an old time newspaper man, had a confidential talk with the Independent news ed some of the interesting inside facts of how mail order houses secure much of their business. He said:

"We have a bureau whose duty it is to read each week the country newspapers from all over the west and Pacific coast. There is not a newspaper of any consequence in our trade territory that our bureau does not get.

This bureau looks over these newspapers and when we find a town where the merchants are not advertising in their local paper, we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in the local newspapers."-Elko Indepen

## GREAT FUTURE FOR **NEVADA PREDICTED**

AUTHORITY ON SILVER TELLS WHY THIS STATE WILL COME INTO ITS OWN

As guest of the Reno Commercial club Charles A. Towne, of New York City, was speaker yesterday noon at a luncheon at the Riverside hotel, says the Reno Journal. The speaker be gan his remarks by paying the state and Reno a high comptiment on pro gressiveness. He pointed out the advance and improvement made since his last visit many years ago.

Mr. Towne's talk was based on sil er and he showed why Nevada was destined to become a great state, Figures given by him showed that silver was to be of the same relative basic value as gold. This will be brought about in the near future, he said, possibly before the end of the present European war. That price of silver will continue to rise was one of the predictions because of a need of monitary exchange and metal of a relative value of gold. "Then Nevada will come into her own," said Towne.

MINE TO START WORK

A deal has been completed whereby DENVER Colo., May 20 .- The Uni the Oest mine at Silver City is to be ment ready for work. The deal also embraces the Comet and North and South Comet claims. This is interesting news, for it indicates still further activity in the Silver City district, one of the most consistent producers in the state.-Virginia Chron-

# QUICK WITH GUN,

WRANGLER SHOT TWICE BY COW. BOY JUST AROUSED FROM SLEEP

Elko county is experiencing some happenings these days that puts fiction all to shame. Take the Connell case, where the wife attempted to make away with her husband in order to get his money, and where she was spurred on by her lover. And to day there comes a story of a shooting from Welis, where a real, genuine cowboy, a gunman, proved himself so quick on the draw that he was able to snatch his gun out and shoot his opponent twice while the other fellow was getting ready to shoot. We read of such happenings in the magazines and give the writers credit for an active imagination, says the Elko Free Press.

But about the shooting at Wells. Constable McCombs came down last night on the late train, bringing a man to the county bastile who had been shot up by one of his companions case, where the wife attempted to

been shot up by one of his companions;

and according to the best information

it happened something like this: Three weeks ago two men applied at the O'Neil cattle ranch for a job, both claiming to be experienced cowboys. They were taken on, as the annual spring roundup is going on, one as "wrangle boy," whose duties it is to berd the horses for the riders, and the other as a regular cowboy. A quarrel came up between the two men and when the hearder let two horses of the other man get away on Tuesday night, bitter words passed between

The herder rode away to the "Sandcreek ranch," after his rifle, and returned to the camp early Tuesday norning, before the cowboys had got-Throwing aside the flap of the tent in which the men were sleepng, he drew a sight on the other fellow, but before he could pull the trig ger, the other man drew his gun from underneath the bed clothes and shot his opponent, once through the shoulder and once through the arm. No arrests have been made.
